

East Road

CASE STUDY

Fit out of office space

Atmosair completed the plumbing, ventilation and Air conditioning works at this new office space. We have also secured further works and the ongoing Maintenance at this site.

Key points

- Coordination with all contractors building management to allow for timely progression of project
- All H & S policies and RAMS submitted and approved from Atmosair in house team
- Atmosair organised crange of VRV plant on to roof space
- Project ran ahead of programme and to budget

The pictures show a small cross section of the works we completed. If you would like to see more we have more available on request.
